

Do you work in the Australian entertainment industry? How have you been impacted by COVID-19?

The pandemic is having unprecedented effects on communities nationally and around the world. Many of those working in the entertainment industry are facing considerable challenges and have a long road to recovery.

To help support this journey, a study is now being conducted into understanding the effect of COVID-19 on small business owners working in the industry.

Whether you're a sole trader, contractor, creator, freelancer, independent artist within the industry or support worker, please take part in an online survey and share your experience.

Findings of the study will be used to help inform and develop new programs tailored to the mental health needs of you and others working in the industry.
